## TESTIMONY

I was born and raised in a Christian home. Father and Mother were both Bible school graduates.

My earliest remembrances of needing a Savior were when I was so small that the piano keys were about chest high. [ My Mother would sing and play the piano for all of us i.e.: “Jesus Loves Me”, “B-I-B-L-E”, etc.

I know I must have asked Jesus into my heart the first time at about the age of 6.

Each year as I learned more I would ask Jesus again and again to come into my heart.

Then as an early teen and while at Summer camp I dedicated my life to Christ for His Service.

I attended a Christian High School, a boarding school for missionary kids.

After High school I really wanted to take a break from it all so I took a job at a paper mill and went to work.

I was soon married against the advice of everyone. More than 15 years later after night school education, two children, a divorce, and remarriage to Marcia, and I began to feel the need to find a church group with whom we could fellowship. In 1978 five or six months before our daughter Jackie was born, we began to attend Faith Baptist. This after much encouragement by Dr. Bill Bowen and others who visited us at our home many times.

The story of my life is proof that God offers a Mulligan, as in the game of golf. God has proven over and over to me that He is the God of “second opportunities” or “do-overs”. He has taken this huge pile of mistakes which I brought to Him and He is rebuilding.

To quote: “The picture I had painted was all out of shape.- He took the brush and made of it something beautiful”

THANK YOU JESUS.
